CURRICULUM VITAE

Angel Mark

IT Student | Developer

Bachelor of Science in Information Technology · Major in Technopreneurship

zipzap32145@gmail.com Android · Web · AI

I build web applications and Android apps as I continue to learn and improve my skills. I enjoy turning ideas into working projects and making them useful and user-friendly.

Selected Projects

EduTech Mobile

Main Developer — **Android / Education**

An offline Android learning app that introduces young learners to computer literacy through age-appropriate lessons and activities.

- Interactive lessons, assessments, and games.
- Progress tracking and achievements.
- Designed for offline-first access.

Kotlin, Jetpack Compose, Room / SQLite, Media3, Lottie.

Belupacito V.1.0.1

Sole Developer — **AI / Web Experience**

An AI-powered pet-care chatbot providing conversational information about pet health, symptoms, and everyday care.

- Responsive conversational interface.
- AI-assisted pet-care information.

HTML, CSS, JavaScript, Python, SQLite, Google Gemini API.

Development Contributions

Application and feature development, UI implementation, testing and debugging, database work, animation implementation, and AI integration.

Education

College
Torres Capitol College, Inc.

High School
San Andres Academy of Maramag, Inc.

Elementary
Camp 1
